GirlUP Ramanujan 24/9/2019
to singh_artika

Greetings from Girl Up Ramanujan!

GirlUp is an initiative under the United Nations Foundation that aims to achieve gender equality worldwide. It seeks to fight for the rights of underprivileged girls in order to build them a better and safer future.

'GirlUp Ramanujan' is a name under the same banner where we're determined to carry on this noble mission and join our hands in the worldwide movement for gender parity. We aim to empower and get empowered in the process.

"It's not about being perfect. It's about the effort. And when one brings that effort every single day, that's when transformation happens. That's how change occurs. That's how we create the perfect."

We at Girl Up Ramanujan believe in making change by making a little effort every day. Take our initiative forward we are planning a **Menstrual Hygiene Awareness Project,** under which we will organize workshops for the girls between the age group of 11-15 years, in the government schools of south Delhi. Under the project we will be conducting 4 workshops starting from **18th October'19 till 8th November'19.**

Our project aims at making these young adolescents aware about the process of menstruation, to clarify their doubts, and tell them about proper hygiene practices that are to be followed in order to lead a healthy and disease-free life. We'll be conducting some activities as well so that the girls can feel more involved in the workshops.

Kindly refer to the proposals attached below to know more about our club and the details of our latest project.

Looking forward to a positive response

Dear Mam,

Greetings!!

It was a pleasure interacting with you over call the other day.

We are keen to conduct a workshop on Career Counselling, Personality Development and various other soft skills which will make our B.Voc students stand a good chance at the time of placements.

I would like to share a brief profile about our college as well as our B.Voc courses.

Ramanujan College, University of Delhi is a name to reckon within the educational sphere of Delhi and is Graded 'A' by NAAC.

Ramanujan College is the only constituent college in Delhi University to have set up a DDU Kaushal Kendra under which it offers Bachelors of Vocation (Banking, Financial Services & Insurance) and Bachelors of Vocation (Software Development).

Both these courses are skill oriented and the prime objective is to impart skill based training to students in consortium with multiple sector skill companies.

As desired, PFA the curriculum of both the B.Voc courses for your ready reference.

As per discussion, will be providing you with a tentative number of students asap.

Dear Ms Succhipatti,

Greetings from DATRI!

This is regarding the Blood Stem Cell Awareness camp and donor recruitment drive conducted in your reputed institution Ramanujan College on 17th September 2019.

The response from your students was wonderful. We were able to reach out to **300** number of people and **52** volunteer blood stem cell donors registered with DATRI. This is a great step for the University/College and for DATRI. **Special thanks to Vikas** for making this possible.

We would like to thank you immensely for giving this opportunity.

Some students would have not registered on the occasion due to time constraints and impending questions. We will be happy to address them and clarify any questions on blood stem cell donation anytime.

As discussed with you we would again like to repeat the Awareness drive somewhere in January in your Auditorium.Thank you again for this partnership.

Looking forward to many such interactions with your esteemed College .

Thanks and Regards

Subject: DATRI Blood Stem Cell Donor Registry- Awareness cum Donor recruitment Drive

Dear Ms Succhipatti

Warm Greetings from DATRI!

Just spoke to you on this.

DATRI Blood Stem Cell Donors Registry was founded in 2009 with a vision to find willing, HLA genetically matched donors for patients of Indian origin suffering from fatal blood disorders. For many suffering from fatal blood diseases like blood cancer (Leukemia, Lymphoma etc) and Thalassemia, a blood stem cell transplant is the last hope of survival. Such patients need a donor with a matching genetic type.
