Dear Colleague,

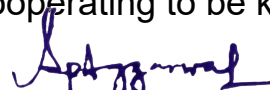

Considering the increased pollution in our capital city of Delhi, the Eco Club of Ramanujan College- TATVA, has come up with thought of observing a **"CARPOOLING DAY"** on **NOVEMBER 14th, 2017**. This is our small step towards a big movement to make our city free of pollution.

We all know that Carpooling cuts down the number of cars and vehicles on the road. Fewer cars means less emission of carbon and other gasses that cause pollution, thereby protecting the environment and keeping air, water, and land cleaner.

It is always possible for teachers living close by each other to do the car pooling. Whatever your needs are, you can look for teachers who have similar schedule or who can add you to their drive route on the days you need a ride.

We request all the teachers to help us in bringing about a change and cooperating to be kind enough to carpool for at least one day, i.e. **NOVEMBER 14th, 2017**.

NOTICE

Dear Colleague,

As a collective initiative to make our institution Electronic Waste Free, the Department of Environmental Studies in association with Tatva: Eco Club organized an E-Waste Drive from 17th September 2018 to 28th September 2018. Most of the faculty members participated in this initiative and their efforts are highly appreciated. Now, we have identified the organization named **Karo Sambhav** who will process E-Waste in an environment friendly manner and provide the certification to the college for the same. In order to have e-waste in bulk, **Tatva: Eco Club and Department of Environmental Studies** is again organizing an **E-Waste Drive from 12th February 2019 to 26th February 2019** within the college campus.

रामानुजन कॉलेज / Ramanujan College
दिल्ली विश्वविद्यालय / University of Delhi
कालकाजी, नई दिल्ली-110019 / Kalkaji, New Delhi-110019

All faculty members are again humbly requested to participate in the initiative by getting their E-waste to the college. After collection of E-Waste, it will be handed over to a third party (KARO SAMBHAV). Here is the List of E-Waste:

Computer Equipment: Computers, Modem, Keyboards, Printers, Scanners, Cables, Mouse, Monitor

Office Equipment: Telephone, Fax Machines

Consumer Electronics: Cell phones, VCRs, Tape Players, Stereo Equipment, Radio, CDs, Power Cords, Battery

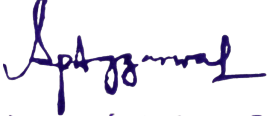

Household Appliances: Microwaves, Blenders, Food Processors, Toasters, Fans, Electric Pan, Electric Kettle, Toaster, Sandwich Maker, Refrigerator.

All the faculty members are also requested to inform and motivate their students to participate in this venture in large numbers. The teachers and students are required to hand over the E-waste to Mr. Sumit Suhag in Computer Lab-3.

In case of any query, kindly contact: Dr. Tenzin Thakur and Ms. Neha Yadav (Department of Environmental Studies).

Dear Colleagues

It's time to once again welcome Lord Ganesha to celebrate the festival of **Ganesha Chaturthi** blissfully and joyfully. But this time lets promise to bring the **Eco-Friendly Idols** so that we don't disrespect the rivers at the time of Visarjan.

Our small steps can contribute a lot to save our rivers, our environment from pollution.

- Use **Biodegradable Plates** for prasaad instead of plastic or styrofoam plates.
- Use **Natural/ Organic Colours** for Rangoli.
- Restrict the volume of music** so that it doesn't create noise pollution.
- While you must have heard of edible Ganesha like cakes and chocolates, we can also make one out of flour.
- Also we can **put seeds in the clay while making the idol**. During visarjan, these idols would be immersed in water-filled pots and the clay would settle so that the seeds might germinate and turn into plants.

Let's say no to idols made of Chemicals, Plaster of Paris, Styrofoam and opt for the ones made from Natural and Biodegradable material in this Ganesha Chaturthi

NOTICE

Dear Colleagues,

In lieu of the growing technological advancement of the world, E-waste generation is huge. An estimated 50 million tons of E-waste are produced each year. So, if not managed properly, they end up in landfills posing various kinds of environmental hazards.

A large number of what is labeled as "E-waste" is actually not waste at all, but rather whole electronic equipment or parts that are readily marketable for reuse or can be recycled for materials recovery. For every 1 million mobile phones that are recycled, 35,274 lbs of copper, 772 lbs of silver, 75 lbs of gold, and 33 lbs of palladium can be recovered.

Happy and Eco-Friendly Diwali 2018

TATVA The Eco Club of Ramanujan College <tatva.ecoclub@gmail.com> Tue, Oct 30, 2018 at 7:54 AM
To: sachin tomer <tomestat@gmail.com>, Ashish Shukla <ashish.iasqm@gmail.com>, pathak.sahil@ramanujan.du.ac.in, success_bhavya19@yahoo.com, kamlesh Kumar Raghuvanshi <raghukamlesh@gmail.com>, Megha Agarwal <dr.megha.iitd@gmail.com>, Pappu Anuragi <pappuiitb@gmail.com>, sumit nagpal <sumitnagpal.du@gmail.com>, shalinisharma_81@yahoo.com, dnt tiwari <dnt_tiwari@yahoo.com>

Dear Colleagues

As we all know, the festival of lights, Deepawali is nearby. The trend of bursting crackers during this festival has evolved and there is a mad race of bursting crackers. According to Central Pollution Control Board (CPCB), the air quality index (AQI) of Delhi on Diwali last year was recorded at 326 (very poor), 426 (severe) in 2016 and 327 (very poor) in 2015. Also, the data recorded by air quality stations of the Delhi Pollution Control Committee (DPCC) last year showed that levels of PM10 and PM2.5 touched scary levels during and after Diwali celebrations. This time, the Supreme Court has set a two-hour window for the use of low-emission firecrackers on Diwali night, but unlike last year, did not impose any ban on the sale of firecrackers in NCR.

However, Diwali is definitely much more than bursting crackers and polluting the environment. It marks the victory of good over evil, light over darkness, knowledge over ignorance and purity over pollution.

Let us re-establish the essence of Diwali by being sensitive to the environment. Diwali can be celebrated with earthen lamps, sweets and togetherness. It is time to go green this Diwali. This Diwali let us spread the joy and celebrations to the under privileged by donating text books, new clothes and sponsoring a healthy meal.

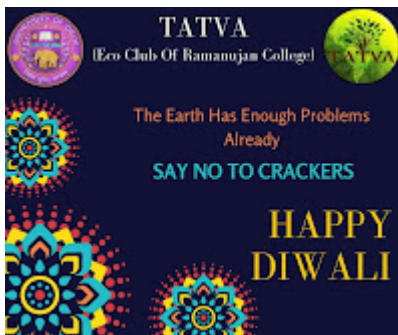

In fact this Diwali, gift a plant to your dear ones, avoid bursting crackers and save nature.

Wishing everyone a Happy and a Green Diwali!!

All the faculty members are requested to spread this message among the students as well in order to celebrate an Eco-Friendly Diwali this time.

Dear Colleagues,

As a part of anti cracker campaign, the Eco- Club of Ramanujan College has created a three minute flash mob to aware the students with hazards of burning crackers. The team of students will visit each and every class between 10.00 a.m. to 12.00 noon. Kindly grant them the permission to perform for 3 minutes in your class of 1 hour lecture.

Regards

Dear Colleague,

Yesterday, Delhi woke up to a blanket of thick haze, as pollution levels breached the permissible standards by multiple times. The Central Pollution Control Board (CPCB) recorded 'severe' air quality, meaning the intensity of pollution was extreme and ALARMING in Delhi. Although the government is taking several steps in this regard, but as a Responsible Citizen of Delhi, it is our foremost duty to safeguard our environment.

- Most of the teachers of the college make use of their vehicles, public transport (Metro/ Bus) and hired cabs for commutation from home to college and back.
- **Use of Public Transport** is the best option to reduce air pollution as it can carry a lot more people in one journey.
- However, if it is not a possible option for any teacher, then there should be a proper **check on the pollution level** of his/ her vehicles and they must **opt for CNG**.
- Also, the teachers commuting by their own vehicles must adopt **Car Pooling** exercise. Carpooling cuts down the number of cars and vehicles on the road. Fewer cars means less emission of carbon and other gases that cause pollution, thereby protecting the environment and keeping air, water and land cleaner.

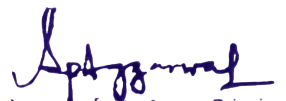

- It is always possible for teachers living close by each other to do the car pooling especially while going back to home. Whatever your needs are, you can look for teachers who have similar schedule or who can add you to their drive route on the days you need a ride.

We really don't want our future generations to live in an unhealthy environment in Delhi. We really don't want our children or our elders to get into incessant coughing due to pollution. Charity begins at home, so we must take a pledge to do whatever we can for our environment and protect it to the best of our abilities.

All the teachers are requested to follow these simple environment-friendly tips to do our bit for our environment. If each one of us takes a pledge to do so, we are sure that Delhi will be a better place to live in. Even a small step counts...

Earth Hour is a worldwide movement organised by the **World Wide Fund (WWF)**. The event is held annually encouraging individuals, communities, and businesses to turn off non-essential electric lights for one hour, from 8:30 PM to 9:30 PM on a specific day towards the end of March, as a symbol of commitment to the planet. It was started as a lights-off event in Sydney, Australia, in 2007. Since then, it has grown to engage more than 7,000 cities and towns across 187 countries and territories.

Earth Hour 2018 will be on **March 24**, from **8:30 PM to 9:30 PM**. The ECO CLUB in association with WWF request all the teachers and their students to take part in this fruitful venture. Even a small step counts...

Dear Colleague,

Water is the most precious gift to the humanity by the nature. Life on the earth is possible only due to water. Three-fourth surface of the earth is covered by the water bodies, even after people of India and other countries are suffering from water scarcity as around 97% of the total water on the earth is salt water which is totally not fit for the human consumption.

So, we all must appreciate the importance of clean water on the earth. All of us need to understand the problems related to lack of water in the future. There is an urgent need to eradicate the people's attitude about water wastage. Keeping this idea in mind, the Tatva: Eco Club of Ramanujan College has choosen the theme of "Save Water" in the month of February to sensitize the students and teachers of the College with this crucial issue.

As a responsible citizen, we should make ourselves and the students aware about all the problems of water scarcity so that we all can take a pledge and join hands together for water conservation. There is a true saying that a small effort of everyone can give a big result just like many drops of water form a huge water body like pond, river and sea. We do not need to make extra efforts for water conservation, we only need to bring some positive changes in our daily activities. A little effort from our end can give a big positive result towards the save water campaign.

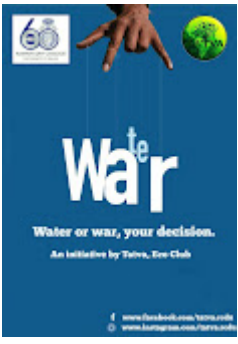

All the teachers are requested to be the part of this initiative and aware their students regarding the same.
