PRINCIPAL'S MESSAGE

Dear Students,

Warm greetings from Ramanujan College!

Ramanujan College has gained a reputation for its unwavering commitment to excellence in all aspects of institutional life. As one of the esteemed colleges affiliated with the University of Delhi, we have witnessed tremendous growth and development over the years. Our college has introduced numerous new courses, expanded its infrastructure, and enhanced the overall teaching-learning experience for our students. We now offer a wide range of extracurricular activities, add-on courses, outreach programs, and placement opportunities. Our primary objective is to foster the holistic development and character building of our students, which we achieve by focusing on their individual needs and providing a conducive socio-ecological environment. Our dedicated faculty members play a pivotal role in guiding students to realize their full potential in any given circumstance.

To ensure the continuous improvement of our teaching and mentoring skills, we encourage our faculty to actively participate in induction and development programs. Moreover, we strive to empower students from diverse backgrounds through various pedagogical tools, mentor-mentee programs, flip learning, fieldwork, internship programs, social entrepreneurship skills, and our placement cell.

I am proud to highlight the success story of our Teaching Learning Centre (TLC), established in 2017 under the Pandit Madan Mohan Malviya National Mission on Teachers and Teaching, initiated by the Ministry of Education. The TLC has trained teachers from all corners of the country through online and offline programs conducted by our college faculty and eminent resource persons. Despite the pandemic, we have continued to offer online courses and have successfully trained over 2,00,000 teachers through more than 100 programs. Furthermore, the college has recently acquired advanced hardware and expertise to provide cloud data storage and processing services to institutions nationwide in the near future.

Looking ahead, our college will place significant emphasis on blended learning programs, skill-based education, capacity building of our teachers and students, and further strengthening the information technology infrastructure. We are committed to aligning with the objectives outlined in the National Education Policy to ensure a comprehensive and modern educational experience.

The spirit of Ramanujan College resonates within all its staff and students. I hope that each one of you will have enriching and memorable years at our college, forging bonds that will last a lifetime.

Best wishes,

Prof. K. Latha

UNDERGRADUATE CURRICULUM FRAMEWORK (UGCF)

The UGCF - 2022 underlines the historical perspective, philosophical basis, and contemporary realities of higher education as enshrined in the National Education Policy (NEP) - 2020 and endeavours to synchronize these cornerstones while charting the road ahead for the state of higher education.

The University of Delhi, a premier seat of teaching, learning, and research in higher education, acclaimed nationally and internationally, has nurtured the quest for reaching the peak in every sphere of education, in its true sense, in its contribution to the nation-building. Moreover, being a Central University mandated to act as the torch bearer in expanding the horizons of human resource development through the expansion of higher education, it has always paid an adequate premium towards constructive and meaningful innovation as a regular feature in its undergraduate curriculum development over the years.

A reflection of such sustained and continued endeavour is amply exemplified in the successive revision of undergraduate curricular framework over the decades and especially in the last two decades, keeping pace with the emerging trends in higher education in the new millennium globally and its critical importance in enriching the youth of our nation, well equipped with the prevailing priorities of skill development through innovative and practical oriented teaching-learning more than anything else.

To actualise the noble objective, as succinctly brought out in the NEP - 2020, the university has endeavored to explore the possibility of further restructuring and refinement of its undergraduate curriculum framework in line with the objective and underlying philosophy of the NEP - 2020 to capture the imagination of the youth of our nation which depicts the contemporary realities of our demographic advantage globally.

The resultant outcome of this comprehensive exercise undertaken by the university is the UGCF - 2022 which not only underlines the heart and soul of the NEP 2020 in letter and spirit but also goes on to create a teaching-learning framework at the undergraduate level to attract the young minds towards research, innovation, apprenticeship, social outreach, entrepreneurship and similar such areas of human knowledge and endeavour while imbibing the truly charged academic environ of the university and its constituent colleges.
