Thursday, 5 April, 2018

Dear friends, distinguished guests, colleagues and students, on behalf of Ramanujan College, I welcome you all on the auspicious occasion of the Diamond Jubilee Annual Day and Prize Distribution Ceremony of our College. It gives me immense pleasure to especially welcome Dr. Archana Thakur, our distinguished chief guest and Shri Shashank, the chairman of our College as the respected guest of honour today. I also heartily welcome the esteemed members of the governing body of our College, the specially invited guests, my teaching and non-teaching colleagues, the alumni of the College present here and all the students of our College to this formal function.

Our distinguished chief guest today, Dr. Archana Thakur is a well known scientist in the field of microbiology and biotechnology. She is currently Joint Secretary at the University Grants Commission (UGC). Dr. Thakur is a gold medalist from the Banaras Hindu University. She pursued her post-doctoral research at Jawaharlal Nehru University, New Delhi, IIT Delhi, and United States Department of Agriculture in Maryland, USA. Her research interests include microbiology, biotechnology, molecular biology and biochemistry, wherein she has published research papers in several international journals of repute. Dr. Thakur joined the University Grants Commission in 2004 as an Educational Administrator. Amongst her multiple assignments at the UGC, she has handled the Administration Bureau, implemented the e-governance project, has been in charge of various scholarship schemes, fellowships and awards. She has also pioneered a new central scheme of the Model Degree College. Dr. Thakur has received many awards for her outstanding work in the field of education and education administration. Ma'am, we are indeed privileged to have you amongst us on this special occasion.

The chairman of the governing body of our College, Shri Shashank, as we all know, is an illustrious officer of the Indian Foreign Service. He retired as the Foreign Secretary of India, the highest rank in the Indian Foreign Service. In a diplomatic career spanning four decades, he has been appointed ambassador in the countries of Denmark, Republic of Korea, Libya and Malta. He is widely regarded as an architect of India's economic diplomacy and for strengthening relationships with the nations in Africa and East Asia. He has been a visiting professor at the Jawaharlal Nehru University's School of International Studies and also served as the chairman of the Association of African Studies in India. He was the president of the Indian Council for International Cooperation and India-Republic of Korea Friendship Association. He is an advisor to several leading universities, chambers of commerce, non-governmental organizations, think tanks and corporations on international relations. Sir, we are indeed fortunate to have you as the Chairman of the governing body of our college and are truly honoured by your esteemed presence with us today.

It is with great pleasure and pride that I take this opportunity to inform you that our College's rank has improved to 26th place on All India Basis in the College's category in the recently released National Institutions Ranking Framework (NIRF) ranks for 2018. I congratulate all my teaching faculty and students for this achievement.

The past year has been historic for the college not only because we are in our 60th year but also for the numerous landmark achievements. With the construction of the new building providing us with state of art class rooms, laboratories, staff rooms, and a medium sized indoor auditorium our dream of owning an independent building is now being fulfilled. The new building is supported by a gigantic service center with provision of a sewage treatment plant, electric sub-station and power generators, water storage tanks and pumps. However, it is perhaps pertinent to remind ourselves that this building with 32 rooms is only a portion of the entire plan and layout of our College. This building alone will not suffice for our future requirements. For the college to reach its full potential it is imperative that the entire building according to sanctioned plans be constructed as quickly as

possible. We earnestly request the concerned authorities to grant us funds for further construction. I wish to put on record my deep appreciation of the fact that the teachers, students and the non-teaching staff of our college cooperated whole heartedly during the period of construction though they had to face many inconveniences.

It is a matter of great pride that the college has been entrusted with the responsibility of conducting the Teaching Learning Centre (TLC) under the Pandit Madan Mohan Malaviya National Mission on Teachers and Training (PMMMNMST) of the Ministry of Human Resource and Development. Ramanujan College is the second college of the University of Delhi to have been sanctioned the Teaching Learning Centre which is one of the most sought after scheme of the MHRD. The vision of TLC is to provide young teachers with the tools for their development as effective and efficient teachers who are responsive to the needs of the learners in both local and global contexts.

So far the Teaching Learning Centre has conducted the following programmes involving many eminent speakers and domain experts as resource persons:

1. A one day national level Faculty Development Programme (FDP) on Goods and Services Tax (GST) on 27 October, 2017 in association with the Indian Accounting Association, NCR Chapter. More than 150 faculty members participated in this FDP. It provided a platform for an interactive session to address apprehensions relating to execution of GST and provided an opportunity to clear the doubts of the participants on the problems of switch-overs from the existing model to the new GST model.
2. A Faculty Development Program was organized from 15-21 December, 2017 on 'Skilling Program for Teachers - Developing Transformational Skills'. 34 participants selected from all over the country participated in this week long program in which various themes related to role of ethics in teaching were addressed.
3. A seven-day Faculty Development Programme on "Skill based Teachers' Training in Information and Communications Technology (ICT), Intellectual Property Rights (IPR) and Research" to enhance the skill set of the teaching fraternity was organized from 5th March to 11th March 2018. Forty two participants from different states and various disciplines attended this FDP.
4. A seven day national workshop on "Human Rights and Environment" was organized from 14 to 20 March, 2018. The thematically arranged workshop had forty three participants from across the country.

The TLC is now in the process of conducting a month long Induction Training Programme for young faculty members in universities, colleges and institutes of higher education from 9th April- 5th May, 2018. It is envisioned to be a highly comprehensive programme that aims to train faculty members on diverse modules such as Curriculum Design and Content Development, Research in Higher Education, Personal-Emotional Development and Counseling, Effective Use of ICT, E-Content Development and MOOCs. Hands-on activities have also been planned for the participants that will enable them to translate theoretical knowledge into applied knowledge.

The Teacher Learning Centre has received highly encouraging feedback regarding the course structure, content-delivery, knowledge acquired, logistics involved and infra structural arrangements for the programme.

In the academic session 2017-18 the first batch of the prestigious B. A. (Hons.) Economics was admitted. With that now we have a total of fifteen courses being run in the college.

The Centre for Social Innovation has launched an initiative, “Pathshaala - Ek Kadam Saksharta Ki Ore” in July 2017 to provide support to underprivileged children from slums; to provide that missing link to their bright future. Inspired by the Sarva Shiksha Abhiyaan and Skill India programmes, this initiative is not only to help them academically but also to build their skills and make them employable. The center has begun basic classes in Mathematics, English and Hindi. A group of around ten volunteers teach nearly twenty five students.

We feel proud that our College with modest infrastructural facilities is able to outreach and host three

learning centers, namely, the University of Delhi's School of Open Learning (SOL) for about 2600 students; the Non-Collegiate Women's Education Board (NCWEB) of the University of Delhi catering to about 600 students and the Indira Gandhi National Open University (IGNOU) Study Center providing facilities to 2500 students.

Our College is also offering coaching facilities to students for various competitive examinations for selection in banks, Staff Selection Commission (SSC) and the civil services.
