Subject: Young Indians (CII) - Yuva 36 Degree Leadership Programme

Dear Sir,

Good Afternoon.

I am Sreevats Gopalakrishnan, Chartered Accountant. Kindly recollect our brief meeting in the college on 25 Nov 2017 alongwith CA Sanjeev Singhal, Partner, Ernst & Young.
It is a pleasure to have connected with you and see your interest in the Programme. As suggested by you, I am giving you a brief overview of the Programme.

To give you a brief introduction, Young Indians (Yi) is an integral part of the Confederation of Indian Industry (CII), an industry led and industry managed organisation playing a proactive role in India's development process. Yi was formed in 2002 with an objective of creating a platform for young Indians to realise the dream of a developed nation. Yi has around 2600 direct members in 40 chapters across 27 states. The Yi membership includes young progressive Indians between the age group of 21 & 40 and comprises entrepreneurs, professionals and achievers from different walks of life. "To become the Voice of Young Indians Globally" being the vision of Yi, it provides a platform for young Indians to participate and contribute to the vision by becoming an integral part of the Indian growth story. Yi's work is divided primarily into three groups; "Youth Leadership", "Nation Building" and "International Engagements".

Yi under the brand Yuva engage students in leadership, personal development and nation building activities and thereby envisions connecting students to the community, the country at large and working towards a movement for "Nation Building". This is done by forming chapters in institutions. Presently Yi engages with 86 Institutions and 8500 Students through Yuva.

We at Yi Delhi Chapter are pleased to constitute a Yi Yuva Chapter at Ramanujan College to achieve this objective of Yi Yuva and thus create a significant impact to your students and thus contribute to nation building.

I am attaching the Yi Yuva Brochure for your reference.

Rubicon's "Connect with Work" Program

Hello Mr. Sharma,

Greetings from Rubicon...!

It is my pleasure to introduce Rubicon; Rubicon was incepted with a dream of a world where every youth has the power to transform lives for themselves and others around them. We strongly believe that every youth has the potential to make a difference in their personal lives as well as the community around them. We build competencies, which would help youth seek careers and prosper in their career of choice. We bring excitement into learning by developing and harnessing their curiosity and intrinsic motivation for learning.

Rubicon's "Connect with Work" Program, supported by Barclays aims at improving the employability skills of the youth. This initiative is supported by Barclays. Under this program students will be trained by Corporate Trainers to enhance their life skills which would help them significantly to increase their chance of succeeding in a job interview. This Program is being launched with limited no of colleges in India.

Dear Dr Aggarwal and Mr Sharma

On behalf of Vice-Chancellor Professor Barney Glover, I wish to thank you for our recent meeting and the opportunity to sign the MOU establishing the Western Sydney University – Ramanujan College partnership. I am sorry we didn't have time to visit your campus on this short, hectic trip.

We discussed a wide range of potential initiatives including short programs in business and psychology, NCP and Indian Government-funded mobility, direct entry to post-graduate courses and sandwich PhDs for academics with Masters, as well as research. I look forward to developing a comprehensive partnership.

I have copied Marisa Furno, Associate Director, International Partnerships and Varun Gupta, Manager, Recruitment and Business Development (South Asia). Varun in particular will work closely with you to promote Western Sydney University courses, meet prospective students and arrange for visiting academics to give guest lectures and meet students.

I look forward to building the partnership and to visiting your campus next time I'm in Delhi.

Kind regards

Linda

Dr. S. P. Agarwal
Principal
Ramanujan College

Dear Dr. Agarwal,

Greetings from the Mathematical Sciences Foundation!

The Mathematical Sciences Foundation – MSF – is a registered not-for-profit society founded by some of India's leading citizens and scientists. It has been in existence for more than 20 years. The ICICI Bank is an institutional member of the MSF. Professor Dinesh Singh, (Padma Shri) is the Honorary Director; Professor Sanjeev Agrawal, M. A. (Oxford); Ph.D. (Delhi) (Shiv Nadar University) is the Honorary Secretary and Professor Geetha Venkatraman, Ph.D. (Oxford) Dean Innovation and Research Ambedkar University, Delhi is the Honorary Treasurer.

The MSF has collaborated with the French Mathematical Society and with many institutions in India. Its students are successful corporate and academic leaders across the world. It has supported talented (and particularly needy) students.

The Internet College is a wing of the MSF set up about 4 years ago and it has pioneered several highly innovative activities in the realm of education.

The MSF would be interested in a long-term collaboration with Ramanujan College to facilitate online training programmes for teachers as well as others.

I have attached a brief document outlining a course on Data Skills for Teachers.

I would like to discuss this further to explore how we could take this forward. I look forward to your reply.

Thank you,

Best regards,

The Mathematical Sciences Foundation - MSF - is a registered not-for-profit society founded by some of India's leading citizens and scientists. It has been in existence for more than 20 years. The ICICI Bank is an institutional member of the MSF. Professor Dinesh Singh, (Padma Shri) is the Honorary Director; Professor Sanjeev Agrawal, M. A. (Oxford); Ph.D. (Delhi) (Shiv Nadar University) is the Honorary Secretary and Professor Geetha Venkatraman, Ph.D. (Oxford) Dean Innovation and Research Ambedkar University, Delhi is the Honorary Treasurer.

The MSF has collaborated with the French Mathematical Society and with many institutions in India. It's students are successful corporate and academic leaders across the world. It has supported talented (and particularly needy) students.

The Internet College is a wing of the MSF set up about 4 years ago and it has pioneered several highly innovative activities in the realm of education.

The MSF would be interested in a long-term collaboration with Ramanujan College to facilitate online training programmes for teachers as well as others.

I have attached a brief document outlining a course on Data Skills for Teachers.

I would like to discuss this further to explore how we could take this forward. I look forward to your reply.
